

## **2020 Census**

With the U.S. Census due to start being collected on April 1<sup>st</sup>, many families have had questions about how this will be completed in light of our current preparedness actions against COVID-19. The Census Bureau will no longer be sending a worker to Grandvue to complete the questionnaire with Residents on April 8<sup>th</sup>; instead, they will provide Grandvue with the means to gather and submit the necessary data. Please contact Rebecca Verville, LMSW at 231-536-2286 if you have any questions about the upcoming census.
