

Clarifications

Window Visits: Window visits have been a very successful way for Residents to stay connected with their loved ones, and **scheduled** window visits will continue with a few guidelines:

- Window visits must be scheduled and coordinated with Grandvue's Activity Department—please call Barb, Lisa or Shelley
- Window visits are held in designated areas. Please do not approach a Resident's room window.
- Window visits are for humans only—if your Resident would like to visit with a favorite pet, this could be arranged via FaceTime or Skype.
- Windows must remain closed during visits.

Resources and Supplies: Thank you to our community members who have come to our aid with donated medical supplies! In response to inquiries we have received:

- Masks in opened boxes **will** be accepted.
- We cannot accept homemade hand sanitizer at this time.
- We have been in touch with area distilleries for sanitizer and will be receiving product from them soon!
- Our Residents welcome and cherish cards and pictures from area children! Please keep them coming!

All supplies, pictures and cards can be dropped off in the front vestibule.
