

Per CMS guidance, Grandvue is restricting visitation of all visitors and non-essential health care personnel *EXCEPT* for certain compassionate care situations, such as end-of-life (Butterfly Protocol).

Each resident on Butterfly Protocol will be allowed two visitors at a time. Visitors must be screened, conduct frequent handwashing, wear a mask, and be limited to a specific room only.

Visits during an end-of-life situation will be made on a case-by-case basis, and all visitors (including clergy, bereavement counselors, etc.) will be screened.
